Ali Hassan

Date of birth: 04/12/2002 | **Nationality:** Pakistani | **Gender:** Male | **Phone:** (+92) 3041469339 (Mobile) | **Email address:** ah074023@gmail.com | **Address:** Dera Ghazi Khan, Pakistan (Home)

ABOUT MYSELF

I'm a Computer Science graduate with a strong interest in web development. I have four months of internship experience as a intern web Developer at Next Age Solutions, where I worked on real projects and improved my problem-solving and teamwork skills. I enjoy learning new technologies and building practical, user-friendly applications.

WORK EXPERIENCE

01/12/2025 - 01/04/2026 - LAHORE , PAKISTAN

INTERN WEB DEVELOPER

Computer science student with a passion for building clean, accessible web interfaces. Comfortable across the full stack, with a preference for frontend work

Department: Next Age Solutions Batch-8 | **Email:** info@nextagesolutions.com | **Website:** https://nextagesolutions.com/

EDUCATION & TRAINING

01/08/2021 - 29/08/2025 - DG KHAN, PAKISTAN

BS COMPUTER SCIENCE - MIR CHAKAR KHAN RIND UNIVERSITY OF TECHNOLOGY DERA GHAZI KHAN

Website: https://www.mcut.edu.pk/

01/11/2019 - 14/11/2021 - DERA GHAZI KHAN, PAKISTAN

INTERMEDIATE ICS- GOVT. GRADUATE COLLEGE BLOCK# 17, DERA GHAZI KHAN

17/07/2025 - 20/09/2025

WEB DEVELOPNMENT - NEXT AGE SOLUTIONS

Website: https://nextagesolutions.com/

01/02/2021 - 14/07/2021

CERTIFICATE IN COMPUTER APPLICATIONS- GOVERNMENT TECHNICAL TRAINING INSTITUTE, D G KHAN.

LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s): **ENGLISH** | **PANJABI; PUNJABI**

PROJECTS

03/01/2024 - 03/12/2025

Real Time Object Detection (Final Year Project) 2025 I Developed a real-time object detection system using the YOLOv7 deep learning model. Responsibilities included dataset collection and annotation, custom model fine-tuning, and building an inference pipeline for real-time detection and classification. Achieved high accuracy on custom classes with optimized performance suitable for deployment. Demonstrated practical expertise in computer vision, convolutional neural networks, and modern object detection architectures.

Tools and Languages:

Python, YOLOv7, PyTorch, OpenCV, LabelImg, NumPy, Google Colab

- Trained a custom YOLOv7 model on an annotated image dataset for real-time object detection
- Performed data annotation, model fine-tuning, and inference pipeline development
- Achieved real-time detection with high accuracy using GPU-accelerated training

10/12/2025 - 21/12/2025

Portfolio site I Built and deployed small websites for local clients including a portfolio site for a photographer and a landing page for a tutoring service. Handled design, development, and hosting setup end-to-end.

Tools and Technologies:

- HTML, CSS, JavaScript,
- Figma (wireframing)

24/12/2025 - 16/02/2026

E-commerce Store – Web Application I Developed a full-stack e-commerce web application, handling the complete development cycle from requirement gathering and UI/UX design through to testing and deployment. The app allows users to browse products, manage a cart, place orders, make secure payments, and track deliveries.

- Built responsive frontend UI using **HTML, CSS and JavaScript**
- Developed reusable components with **React**
- Connected backend services via **REST APIs**
- Integrated a **Payment Gateway** for secure online transactions
- Managed database and authentication using **Firebase**
- Tested and deployed the application on **Netlify**

Tools and Technologies:

- HTML · CSS · JavaScript · React · Firebase · REST APIs ·
- REST APIs, Payment Gateway Integration
- Netlify

TECHNICAL SKILLS

Software Skill

MS Office | Microsoft Project | Android Studio | Visual Studio Code | MATLAB |

Programming Skills

HTML | CSS | PHP | JavaScript | Python | AI | ML | DL
